RADIATION HEAT TRANSFER MEDIUM (GENERAL HIGHER EDUCATION ELEVENTH FIVE NATIONAL PLANNING MATERIALS)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 266 Publisher: China Power Pub. Date :2009-05-01 version 1. This book is a general higher education. Eleventh Five-Year national planning materials. The book has eight chapters. the main contents include the basic physical processes of radiation. the basic laws and with absorption. emission and scattering ability of radiation characteristics and parameters of the medium; media status and radiation in the radiation energy transfer medium and to simplify the basic equations; there is no thermal radiation and convection heat transfer process and its solution; while the role of thermal and radiation heat transfer process and its solution; heat conduction. convection and radiation heat transfer process simultaneously and its solution; industrial furnace radiative heat transfer approximate calculation; radiative heat transfer media. the numerical solution; radiation heat transfer media. a number of research and engineering applications. In addition. the book is accompanied by six media on radiation heat transfer calculation of the source code to facilitate the reader to practice as a numerical example. This book can be used as thermal energy and power engineering and related disciplines of physics graduate students and senior undergraduate textbook. but also for research in radiation science and technology workers. Contents: Preface Chapter 1 medium heat radiation and the radiation characteristics of 1.1 of the basic physical processes of radiation and the radiation laws and definitions of 1.2 problems with media thinking exercises References Chapter 2 radiation energy transfer media. the basic equation of 2.1 the energy conservation equation 2.2 2.3 media state radiation process of radiative transfer flux equation 2.4 2.5 and simplify the optically thin limit media 2.6 2.7 optically thick radiation limit media slip thinking questions and exercises References Chapter...
