*This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Blackboard Sketching Ability to draw easily and well on the blackboard is a power which every teacher of children covets. Such drawing is a language which never fails to hold attention and awaken delighted interest. It has been considered impossible for most of us, because we have never done it. It has been strongly recommended, but no one has really shown us how. A book like this which does show how, step by step, from the first practice strokes to completed and effective sketches, will be everywhere welcome. No one can follow the plain suggestions given without appreciating the possibilities of chalk and charcoal for ordinary school-room illustration, and finding in himself a steady development of power to sketch on the blackboard. The book is not the product of theories about drawing, but the fruit of long experience of one who has drawn with and for children and students and teachers, and has been more successful than any one I know in inspiring them by that means. I welcome the book and predict for it a potent influence for increasing and improving blackboard drawing throughout the schools of the land.
