Language: English Brand New Book ***** Print on Demand *****.Excerpt from Practical Structural Design, Vol. 2: A Text and Reference Work for Engineers, Architects, Builders, Draftsmen and Technical Schools; Especially Adapted to the Needs of Self-Tutored Men This book is a child of the War for Civilization, into which the United States entered in 1917. The author, then an officer in the Reserve Corps of the United States Army, in anticipation of an early call to service put his material into book form. Not all of it was set in type when he was ordered to France, consequently he was unable to read all the proof sheets. The first edition was on the market several months before he had the pleasure of reading some reviews in the trenches on the British front, where he spent the fall and part of the winter of 1917. The book had been off the press seven months before he read his personal copy. That it contained so few errors was a tribute to the able work of the men in the employ of the publishers. Although the call for a second edition has been insistent it has been hard for him to find the time to prepare the manuscript. It is with a feeling of relief that he has finally dispatched the last sheet. All errors which could be discovered in the first edition have been corrected. A new chapter has been added dealing with semi-rigid frames. He desires to here express his thanks to the many friends who so kindly pointed out errors to assist in making the book a real working tool for the class of men for whom it was primarily prepared. The writer has held for years...
