By George M. Guess

Central European University Press. Paperback. Book Condition: new. BRAND NEW, Fast Track: Municipal Fiscal Reform in Central and Eastern Europe and the Former Soviet Union, George M. Guess, The Former Soviet Union/Eastern European area is unique in that an entire region was hit by one external shock that profoundly affected state economies and political systems. After the collapse, municipal fiscal reform proceeded rapidly in the area. Systemic improvements in local taxation, budget formulation and implementation have taken place in the past decade at a rapid pace. Local governments in these regions have demonstrated important advances in program/performance budgeting and medium-term expenditure planning. Innovative reforms also are evident in financial design and planning of particular programs, such as education and health. The results of "fast track" fiscal reforms in local governments can be discerned from the chapters of this timely book that cover LGI research on: Armenia, Bulgaria, Hungary, Kyrgyzstan, and Romania. The case studies focus on such core local financial management topics as: revenue and financing (e.g. property management), pricing public services (e.g. educational textbook fees), and budgeting for results.
