Reviews

This publication might be well worth a read, and much better than other. It really is simplified but excitement inside the 50 % of the book. You will not feel monotony at whenever you want of the time (that's what catalogues are for concerning when you check with me).

All honour to them that in spite of this handicap they give of their best, and give it whole-heartedly to their stricken comrades. The pill of fact herein is but thinly coated with the sugar of fiction, but if the reader can get a picture, however indefinite, of military hospital life in France, these pages will not have been written altogether in vain.
