Original publisher: Research Triangle Park, NC. : Office of Research and Development, National Health and Environmental Effects Research Laboratory, U. S. Environmental Protection Agency, 2005. OCLC Number: (OCoLC)71201482 Subject: Contaminated sediments -- United States. Excerpt: . . . For each research issue, the project description summarizes the issue, the state of the science, and the research needs. In addition, a list of the research targets and a description of the actual research steps and tasks required to complete the research are included. The project description also includes a section on technology transfer that describes how the products and research will be provided to OSRTI and identifies the resources (FTE and project-specific extramural dollar needs) required to accomplish the research. The resource summary is used to both ensure that the Steering Committee does not design a program requiring more resources than are available and to identify explicitly what can be done with additional resources. Finally, the project descriptions are completed with a critical path diagram, a product timeline, and references. After the individual project descriptions in this document, a Program Summary and Management section is...
